

COMPANY PROFILE

Who We Are

Aleph Robotics helps leading humanoid robot manufacturers successfully enter the Israeli market through business development, pilot deployments, technical integration and local support.

Mission

Our mission is to be the premier gateway for humanoid robotics in Israel, providing unparalleled expertise, seamless integration, and comprehensive support to both manufacturers and end-users. We strive to foster a future where intelligent humanoid robots enhance productivity, safety, and human potential across the nation.

Aleph Robotics

**Your Strategic Partner
for Humanoid Robotics
in Israel.**

**Connecting Global
Humanoid Robotics
with the Israeli Market.**

How We Help

Aleph Robotics enables leading humanoid robot manufacturers to successfully enter and scale in the Israeli market.

- **Market Entry Strategy**

Regulatory guidance, market validation and go-to-market planning.

- **Pilot Deployments**

Planning and execution of commercial pilot projects.

- **Distribution & Sales**

Building local sales channels and customer relationships.

- **Technical Integration**

Adapting robots to real-world customer environments.

- **Training & Support**

Operator training, maintenance and long-term technical support.

Partnership Model

Manufacturer → Aleph Robotics → Israeli Customers

We act as the local commercial and technical partner, enabling manufacturers to focus on innovation while we drive market entry, deployment and customer success.

Why Israel?

- ✓ Global innovation hub
- ✓ Strong AI & robotics ecosystem
- ✓ Early technology adoption
- ✓ High demand across hospitality, healthcare, logistics and manufacturing
